Correction of Entry for Carol Foreman and Nikki Heidepriem in tobacco report issued 8/26/92 by Public Citizen's Health Research Group and the Advocacy Institute.

In a report issued this morning, Carol Foreman and Nikki Heidepriem were listed as registered lobbyists for Philip Morris. This was based on an entry in Washington Representatives, Columbia Books, 1992, in which, under each of their names, was the statement "registered lobbyist" and, following, was a list of clients which included the Philip Morris Management Corp. The inference that both were registered lobbyists for Philip Morris was incorrect. Both advise Philip Morris on philanthropic activities. The correct entry for both should state:

"Carol Foreman (or Nikki Heidepriem), consultant on philanthropic activities for Philip Morris Management Corp.", instead of registered lobbyist.
